

SKYE – MASSAGE TABLE

NEW

Leg Extension

Adjustable armrests

Shown in Dove Grey upholstery

FEATURES

Skye was created to accommodate the unique requirements of massage therapists. The highlight of this table is its newly designed head section, which can be adjusted for both lying and seated chair massage positions. The variable position armrests can be adjusted on 3 axes to comfortably position patients and relax the shoulders. This table also comes equipped with a powered adjustable center section, controlled by our patented Soft Touch Technology, located on the base of the table.

SOFT TOUCH TECHNOLOGY

Cardon's patented Soft Touch Footswitch has been strategically positioned on the base of your treatment table. **Minimal** amount of pressure applied by your foot will raise and lower the table with ease.

SKYE – MASSAGE TABLE
